WILSON DOLLAR CLUB READY FOR DONATIONS

The news is in receipt of the following:

To the Amarillo Daily News:

The membership committee of the Woodrow Wilson Fund Club of Amarillo has been appointed and is made to receive subscribers to the club membership and to the fund. In a general way, it is the plan of the National Committee to get contributions of just one dollar each from subscribers. The idea is to make the popular subscription uniform. However, smaller subscriptions are not rejected, and if any one wishing to show his interest and good will does not feel able to contribute as much as one dollar, he is at liberty to make a smaller contribution. Larger subscriptions are not deemed advisable. The object is to take a great popular subscription and to avoid all distinctions among subscribers by holding the contribution of each subscriber down to so small a sum that it cannot be onerous to any one.

This movement has the sanction of the National Democratic Executive Committee and of Governor Wilson himself. In the pre-convention campaign, Governor Wilson made it plain that he was unwilling to use large funds contributed by a few wealthy men to secure the nomination. He has made it equally as clear since his nomination that he is unwilling to use large contributions from any one to secure his election.

He is determined to owe his election, if he succeeds, to none but the masses. He relies upon their votes and upon their money. He has no Perkins with his barrels. He has no tariff harons with tribute-money-billions. He goes to the public at large for his campaign fund, just as he has gone to them for votes. If he is elected, as now seems inevitable, he will be the first Democratic president that has ever occupied the chair since Andrew Jackson vacated it. The popular dollar fund plan is something unique in modern politics. The country is vitally interested in its success. There must be an end to the election of presidents by enormous funds raised secretly from a few persons or corporations having millions at stake in governmental policies. This year we have the opportunity to end it by making a success of the Dollar Fund campaign and by the election of Governor Wilson.

It is hoped that every Democrat in Amarillo will hunt up the com-

mittee and make a subscription to the fund. It is an opportunity that should appeal to every patriot. Please see the committee this week as the National Committee wishes to issue a statement of contributions made throughout the country early next week. Mr. W. H. Fuqua is chairman of the committee and treasurer of the fund for Amarillo.

Very respectfully,
W. H. KIMBROUGH,
Chairman of the Club.

Louisiana Selects Congressmen

Baton Rouge, La., Sept. 3.—Closing a campaign of more than ordinary interest, because of the unusual number of contests, Democrats of Louisiana went to the polls today to express their preferences for the congressional nominations and for supreme court judges. In the First district Congressman Estopinal appeared as a candidate for renomination, with D. B. Otero as his opponent. In the Second district Congressman De-pre was opposed by Louis Le Bourgeois. In the Third district Henri Gueydan appeared as the opponent of

Congressman Broussard, who seeks another term in the House before he takes his seat in the senate in 1913. Congressman Watkins was a candidate for renomination in the Fourth district and had as an opponent Frank Looney of Shreveport. Three rival aspirants contested in the Fifth district for the seat of Congressman Ramsdell, who has been elected to the United States senate. In the Sixth district there were four candidates for the unexpired term of Congressman Wickliffe and in the Seventh district several aspirants appeared for the seat of Congressman Pujo, who declined to be a candidate for re-election. Dr. J. B. Aswell was unopposed for the nomination in the new Eighth district. The complete results of the primaries will probably not be known until late tomorrow.
